“ *Death is life's greatest mystery. What happens when our soul leaves our body is the most important question in the world. The answer will affect how we live our lives. The world is plagued with the question of what comes after this. When we are face with the death of a loved one, we are stunned with grief. We don't understand, they were there and now they are gone, where did they go? Where does the spirit go? The truth is that our soul knows of its eternal nature. If we ask our souls this question in a real way, we will find that we know that we are made from the stuff of eternity.*
