“ Rob was dear friend of mine, I will hold on to the memories I have from Before his passing. I do not do funerals, I know that I was there for hom while he was still with us, and I took care of him dearing his sickness when He had no one else . He knows I did and so do the people that were around at that time. I know I did the right thing , that way he atleast got to say goodbye to his family especially his children. Rob was my best friend growing up and I can rest k owing I was there for him in the end and when he needed me the most just like he was always there for me growing up RIP brother Rob I know we will meet again in our fathers kingdom. I love you.
