“ I've never really had trouble writing before, but lately I haven't been able to find the words to express how much you meant to me. People often take for granted the time they have with loved ones until it's too late. I'm glad to say that I had the chance to grow up with you in my life. You helped mold me in so many ways with just your words. You always made things feel so safe when you were around and now your safely at home. I know you're giving Angels "dap" right now.

I Love You Grand-Daddy (BG).
